Dear author,

We thank you for the submission of your paper

"Sentiment Mining in Twitter using Machine Learning"

to our journal.

Please notice that your submission will only be dealt with if

- 1) the paper is formatted according to the J.UCS guide lines (see [http://www.jucs.org/ujs/jucs/info/submissions/style\\_guide.html](http://www.jucs.org/ujs/jucs/info/submissions/style_guide.html)).
- 2) after we have received a copyright transfer statement for the paper. You can either upload an electronic version of the copyright transfer statement via web together with your paper or you can fax us the signed copyright transfer statement to +43 316 873 5699

The copyright transfer statement can be downloaded from <http://www.jucs.org/ujs/jucs/info/submissions/copyright.html>.

Your paper will be sent to the members of our editorial board. If at least three reviewers sign up for a review of the paper, your paper will be admitted to the evaluation process. You will be notified about the status of your submission within 4 weeks. If we fail to find the required number of reviewers, the submission is withdrawn and you are free to submit your paper to another journal of your choice.

The duration of the evaluation process depends entirely on the quality of the submission. From past experience, excellent and innovative papers written in flawless English in an area that is mainstream can pass the evaluation process in less than 4 months. However, if the reviewers demand a revision and hence the authors have to send an improved version followed by a second round of reviews, the evaluation time may be easily twice as much.

If you have any questions, you can contact us at [jucs\\_ref@iicm.tu-graz.ac.at](mailto:jucs_ref@iicm.tu-graz.ac.at)

We thank you for your interest in our journal.

Cordially,

J.UCS team
